

RELEASE LUSITANIA FROM QUARANTINE

Fear of Cholera on Big
Liner Without Foundation,
Is Official Verdict.

NEW YORK, Sept. 2.—Held overnight at quarantine in fear of cholera, after she had been recalled when nearing her pier, the giant liner Lusitania, with 956 cabin passengers and 1,124 in the steerage, was released this morning and reached her pier at 8 o'clock.

Two thousand persons were waiting for her to dock, many of them having remained at the wharf all night. Excitement at times was so intense that the police had difficulty in keeping order.

The release came after a bacteriological examination had been made in the case of a man in the steerage. His illness was discovered by Dr. Doty, one of the health inspectors, after the ship had been tentatively passed at quarantine.

Though in many instances the passengers were bitter over the delay, the majority of them took their dreary night within sight of home good naturedly. The liner San Giovanni, from Frank, Italy, was held up with a big passenger list, because of the suspicious death of a girl five days ago.

For Rigid Inspection.

Following the release of the Lusitania it was learned that the Government's fight to bar the introduction of cholera in America will be the hardest campaign of the kind it has ever waged. Every incoming steamer from Europe will be subjected to an unprecedented severe examination, and the bars are down firmer than they have ever been before. These precautions will be taken at every port in the country.

It was declared on good authority today that the health authorities had received secret advice saying that many suspects and victims of cholera had died from their European homes, with the intention of seeking a refuge in the United States.

Take Every Precaution.

Dr. Doty, the health officer who held up the Lusitania after she had started from her dock, said today:

"We are not guarding simply against those ports near towns where cholera is known to have broken out.

"Every possible precaution will be taken—and it is being taken—to keep America safe. No steamer will escape a rigid examination. A suspiciously ill passenger will be treated the same, no matter on what steamer or what he comes."

Several Countries Affected.

With cholera prevalent in four European countries and bubonic plague also making its appearance in Russia the situation requires the utmost caution, according to the authorities. Particular efforts are being made to prevent the introduction of the disease on ships from Trieste because of the outbreak of an epidemic in Austria.

Though the situation is reported as improving in Germany and Italy, no chance will be taken in regard to passengers from those countries, and the inspection of Russians has been made more stringent because of the spread of the disease.

CATHOLICS HONOR BACON.

PARIS, Sept. 2.—Robert Bacon, United States ambassador to France, was guest of honor at a dinner given at the Hotel Palais d'Orsay by a large body of American Catholics, who are returning from a pilgrimage to Rome and Oberammergau on their way to the United States.

ROME IS ALARMED BY CHOLERA SPREAD

Twenty-six Fresh Cases and Thirteen Deaths Are Reported.

ROME, Sept. 2.—Twenty-six fresh cases of cholera and thirteen deaths were reported today.

While every effort is being made by the authorities to reassure the public in their reports on the epidemic situation the belief is steadily gaining ground that the spread of the disease is far wider than the officials have admitted and that the situation is one of exceedingly gravity.

OFFICIALS INDICTED FOR NEWARK RIOTS

NEWARK, Ohio, Sept. 2.—Former Sheriff William Linke, of Licking county, former Mayor Herbert Atherton, of Newark, and former Chief of Police Robert Zerbe have been held responsible for the riots which disrupted Newark recently, by the grand jury, which has made its report to the Ohio courts.

The report is the bitterest exhortation of town officials ever brought before the courts of this State. It contained fifty-eight indictments. Twenty-six are for first degree murder.

JURY MAY RECEIVE BROWNE CASE TODAY

Attorneys for Defense in
Bribery Trial Begin Closing
Arguments.

CHICAGO, Sept. 2.—When attorneys for Lee O'Neil Browne, accused of bribery in connection with the election of William Lorimer to the United States Senate, began their closing arguments before Judge Kersten this morning it was expected that the case would be given to the jury today.

State's Attorney Wayman's address was filled with charges of perjury against witnesses for the minority leader. He declared that several of those who testified for Browne had lied outrageously on the stand, and that indictments would be voted against them.

Meantime, the special grand jury called to investigate the perjury charges was in session in Judge Brennan's court, and was said to be ready to report an indictment against witness George F. Gloss.

The charges against other Browne witnesses will be taken up by the September grand jury.

TURKS ARE MASSING TROOPS ON FRONTIER

Paris Is Again Alarmed by Situation Affecting Greece.

PARIS, Sept. 2.—The Turkish-Greek situation today again caused alarm here, following the receipt of dispatches saying the Turks were massing troops and guns on the frontier.

Sixteen batteries of quick-fire guns have been sent to Karaferr, ostensibly for maneuvers. A serious indication is the canceling of all leaves of absence for officers.

To What School Shall We Send the Girl?

This question will sooner or later occupy the minds of thousands of parents, and should have close and careful attention. Schools are like human beings, no two alike; each and every one can but reflect the moral, physical and intellectual training of its master. Select a school whose master's ideals and theory of womanhood are on a par with your own. You will then create a continuous chain of training. All the pains that you have taken to lead her on the right path are brought to bear fruit in the shape of an education and a certainty of peace obtainable through no other method that we know of.

The Educational Columns of The Washington Times

contain announcements from many of the leading schools and colleges in this section of the country. Read the announcements daily. Turn to them now. Write to the advertisers for catalogues and information. How can you tell which school is best adapted for your girl unless you investigate?

The Times is printing more and more high-class educational advertising every day of its existence. Schools and colleges know their announcements will go into the HOMES of Washington when they
